

Diana Khaled karim jassim

ديانا خالد كريم جاسم العاصمي

PROFILE

I am an Assistant Lecturer and researcher at the University of Wasit, Iraq. My research interests focus on Organic Chemistry, Green Chemistry, and Nanotechnology.

PUBLICATIONS (7)

- Biochemical, Physiological, and Immunological Changes Associated with Toxoplasma gondii Infection and Their Effects on Human Brain Health**
NIU Journal of Health Sciences 12 (1), 35-46, 2026 | 2026
- Synthesis of Fe₃O₄ Nanoparticles via Ultrasonic Technique and Evaluation of Their Antibacterial Efficiency**
Russian Journal of General Chemistry 96 (8), 225, 2026 | 2026
- Green-synthesized Ag₂O- Doped Polyaniline Nanocomposites: Structural, Optical, and Electrical Properties**
Basrah Journal of Science | 2026
- Oxidative Stress and Its Role in Human Disease: Molecular Mechanisms, Biochemical Biomarkers, and Therapeutic Perspectives; as Review Article**
Journal of Pure and Applied Sciences (Science Forum) 26 (4), 2026 | 2026
- Structure-Property Relationships of Hydrogenated Polyisoprene as a Robust Polyolefin Alternative**
Polymers for Advanced Technologies 36 (7), e70267, 2025 | 2025 | Cited: 2
- Synthesis of Arylated 1, 3, 5-triphenyl Pyrazoline Derivatives by Suzuki-Miyaura Reactions With Antimicrobial Evaluation**
Egyptian Journal of Chemistry 64 (5), 2469-2481, 2021 | 2021
- Synthesis and antimicrobial evaluation of arylated 1, 3, 5-triphenyl pyrazoline derivatives using suzuki-miyaura reactions**
J. Chem 64, 2469-2481, 2021 | 2021 | Cited: 3
