

# Haider Hadi Kattoof abd

حيدر هادي كطوف عبد السعدي

Lecturer

## PROFILE

I am a researcher in the field of Veterinary Medicine with a strong interest in scientific research and the advancement of knowledge related to animal health and veterinary diseases. My work focuses on conducting scientific studies and publishing research that contributes to improving animal health and veterinary practices. My research interests include infectious animal diseases, veterinary public health, and modern diagnostic and treatment techniques. I aim to contribute to the development of scientific research and serve the community through academic work and scientific collaboration.

## ACADEMIC TITLES

2024-02-01 Lecturer

## TEACHING EXPERIENCE

Lecturer  
Wasit University - College of Veterinary Medicine  
2024-01 - Present

## COURSES

- Heminthology (VEM3112)
- Protozoa and Arthropoda (VEM3122)
- Infectious diseases 2 (VEC4126)
- VETERINARY CLINIC 1 (VEC5112)
- VETERINARY CLINIC 2 (VEC5118)

## ADMINISTRATIVE POSITIONS

2024-11-17 - Present Head of Parasitology Dpt.

## PUBLICATIONS ( 8 )

1. First Serological and Molecular Phylogenetic Confirmation of Feline Leishmaniasis in Iraq  
*Asian Journal of Dairy and Food Research* 46 (3), 1-9, 2026 | 2026
2. Comparative Study of Toxoplasmosis in Cats and Human Handlers in Wasit Province, Iraq Using Microscopic and Serological Methods  
*Journal of Medical Science, Biology, and Chemistry* 2 (1), 165-169, 2025 | 2025 | Cited: 1
3. Formulation of a biosurfactant-based biode detergent using surfactin from *Bacillus subtilis* for oil-contaminated wastewater bioremediation  
*Chemical Papers* | 2025
4. Formulation of a Biosurfactant-Based Biode detergent Using Surfactin From *Bacillus Subtilis* for Oil Contaminated Wastewater Bioremediation  
*Research Square* | 2025

## EDUCATION

دكتوراه (11-10-2020)  
Parasitology  
University of Baghdad

## RESEARCH METRICS

|                    |    |
|--------------------|----|
| h-index (Scopus)   | 1  |
| h-index (GS)       | 3  |
| Citations (Scopus) | 2  |
| Citations (GS)     | 41 |
| Documents (Scopus) | 1  |
| Documents (GS)     | 5  |

## RESEARCH INTERESTS

- Veterinary Parasitology- Molecular Diagnosis of Parasites- Epidemiology of Parasitic Diseases -Zoonotic Parasites -Antiparasitic Drug Resistance

5. **Traditional study and seroprevalence of Theileria spp. in camels in Middle of Iraq (Wasit, Al-Qadisiyah and Al-Najaf AlAshraf)**  
*Plant Archives 20 (2), 4158-41, 2020 | 2020 | Cited: 10*
6. **Molecular study and effect of risk factors on infection rates of Theileriosis in camels in middle of Iraq**  
*Plant Archives 20 (2), 1349-1354, 2020 | 2020 | Cited: 3*
7. **Diagnosis of Neospora caninum using ELIZA and study of histopathological changes in dairy goat in Wasit province: Iraq**  
*J Entom Zool Stud 6, 1256-1259, 2018 | 2018 | Cited: 1*
8. **Seroprevalence of Neospora caninum in goats in Wasit province Iraq.**  
*2015 | Cited: 26*
