

Haider Jameel Hassan Hameed

حیدر جمیل حسن حمید

Assistant Professor

PROFILE

****Haider Jameel Hassan Hameed**** is an active researcher dedicated to advancing scientific inquiry and contributing to scholarly discourse. Demonstrating a strong emphasis on research quality and engagement, he has established an emerging academic profile with a focused portfolio of publications.

To date, Hameed has authored four scientific works indexed on Google Scholar. His contributions have earned 15 citations from the international research community, reflecting the growing relevance and application of his work within his field. Demonstrating notable impact relative to his total output, he currently maintains a Google Scholar h-index of 3.

Driven by a commitment to rigorous academic standards, Hameed continues to expand his research endeavors, aiming to address contemporary challenges through collaborative and impactful scholarly work.

ACADEMIC TITLES

2025-09-22 Assistant Professor

TEACHING EXPERIENCE

Lecture
College of Education For Pure Science
2023-10 - 2026-07

PUBLICATIONS (4)

- Synthesis of ZnO nanorods through hydrothermal techniques: A study of optical properties and gas detection performance**
Journal of Nanostructures 15 (3), 820-830, 2025 | 2025 | Cited: 3
- Synthesis and characterization of magnesium oxide-doped iron (III) oxide nanoparticles by sol-gel method**
Jurnal Teknologi (Sciences & Engineering) 87 (5), 907-914, 2025 | 2025 | Cited: 2
- Adding silver oxide on photoconductive characterizations of (Au-CeO₂) thin-film deposited on porous silicon P-type**
AIP Conference Proceedings 2834 (1), 090006, 2023 | 2023 | Cited: 6
- Wide range responsivity photodetector of Zr-Au-Ag oxide NPs prepared by pulsed laser ablation**
Journal of Physics: Conference Series 2114 (1), 012073, 2021 | 2021 | Cited: 4
