Zainab Abdul Gabbar Abood

زينب عبد الجبار عبود
Assistant Lecturer

PROFILE

****Zainab Abdul Gabbar Abood**** is an emerging academic and researcher dedicated to advancing scholarly inquiry within her field of study. As an active contributor to the academic community, she focuses on conducting systematic research and disseminating her findings through peer-reviewed literature.

To date, Abood has established a foundational research portfolio, authoring three scholarly publications indexed on Google Scholar. Her work has begun to gain recognition among her peers, earning citations and establishing an h-index of 1. These early metrics reflect her growing engagement with contemporary research questions and her commitment to contributing meaningful insights to her discipline.

Demonstrating a strong dedication to academic excellence, Abood continues to expand her research agenda and collaborate on scholarly initiatives. She remains focused on building her academic portfolio, deepening her specialized expertise, and contributing further to the body of knowledge in her area of research.

ACADEMIC TITLES

2023-04-25 Assistant Lecturer

PUBLICATIONS (4)

- Relationship between MicroRNA-146a Expression and some Cytokines in Patients with Type 2 Diabetes Mellitus**
Dijlah Journal of Medical Sciences P-ISSN: 3078-3178, E-ISSN: 3078-8625 3 (3), 2026 | 2026
- EFFECT OF COPPER NANOPARTICLES ON CRYPTOSPORIDIUM OOCYSTS IN VIVO**
Journal of Global Health Reports 6 (2), 31-37, 2024 | 2024
- Effect of oxidase sliver nanoparticles in Cryptosporidium SSP. Oocysts in vitro**
Int J Health Sci 6, 6887-94, 2022 | 2022 | Cited: 2
- Exosomal Gene Fold Expression Estimation of Leishmania Major by Real TIME QPCR in Vivo and in Vitro**
International Journal of Health Sciences, 2785-2796, 0 | 0
